

# radenso

# DS1

The new Radenso DS1 is filled with features you would expect in a premium detector, plus some no other detector can boast.

GPS, auto lockouts, USB-C, a color OLED display, magnetic mount, audio jack, RDD stealth, and unmatched customization are just the start.

The DS1 delivers astonishing range, lightning fast response to "quick trigger" radar, and best-in-class false alert filtering. With a magnesium horn, powerful DSP technology, and full MRCD detection, you're protected against every threat.

# packed with performance
