- Built-in GPS for camera locations
- Ultra-bright, easy to read, multi-colored OLED display
- MRCD/MRCT (Alert priority: Laser, MRCD, Ka, K, X) with customizable tones
- Auto Mute Memory - automatically locks out false alert locations
- Advanced K/KA band filters
- Voice notifications
- Quiet Ride (speed-based auto mute)
- Auto dim
- Bogey Tone, Customizable, Alerts
- Radar Band Frequency Display (Current Speed, Battery Voltage, Altitude, Clock)
- Laser gun identification
- Spectre Elite undetectable
- Maximum speed warning system
- Upgradeable firmware

The R4 is an all new platform with a much greater range. It has a new Auto Mute Memory feature, which automatically locks out false alert locations.

The R4 also has the best K Band filter on the market, so you get the least amount of false alerts from blind spot monitors and K Band radar-based cruise control systems in other vehicles.

When you need the best information possible, and none of the noise, Uniden's R4 Extreme puts you well ahead.
